

# MARCELO ALBUQUERQUE

I am a petrophysicist with a unique combination of skills in applied machine learning, statistics and reservoir engineering. I am passionate about analyzing and extracting value from data, using exploration and visualization tools and deploying solutions for business problems.

Currently searching for a position that allows me to build tools leveraging a combination of visualization, machine learning, and software engineering to help people explore and understand their data in new and useful ways.

## EDUCATION

- 2020  
|  
2018
- **MsC, Computer Science**  
UFRJ 📍 Rio de Janeiro, RJ
    - Master Thesis: Prediction of Petrophysical Properties Using Machine Learning and Hierarchical Multi-Task Linear Models
- 2008  
|  
2003
- **B.S., Electronics Engineering**  
ITA 📍 Sao Jose dos Campos, SP
    - Diploma Thesis: Applications of Time-Domain Back-Projection SAR Processing in the Airborne Case

## INDUSTRY EXPERIENCE

- Present  
|  
2018
- **Data Scientist**  
Petrobras Research Center 📍 Rio de Janeiro, RJ
    - Develop Machine Learning models to predict Petrophysical Properties
    - Build REST APIs and python/R packages to access and explore petrophysical data
    - Enhance data storage and image processing workflows for microtomographic images
    - Design petrophysical data visualization tools and web apps
    - Develop reservoir simulation python packages to deploy and update petrophysical models using history matching bayesian methods
- Present  
|  
2015
- **Petrophysicist**  
Petrobras Research Center 📍 Rio de Janeiro, RJ
    - Coordinate the execution of Routine and Special Core Analysis (SCAL) data gathering for pre-salt and other strategic fields of Petrobras
    - Analyze SCAL experimental data and provide meaningful petrophysical rock parameters for reservoir simulation
    - Simulate and research physical phenomena and improve data acquisition methods

## LANGUAGE SKILLS

Made with the R package  
[pagedown](https://github.com/jgm/pagedown).

Last updated on 2025-06-16.

2015  
|  
2010

- **Reservoir Engineer**  
Petrobras 📍 Aracaju, SE
  - Reservoir Engineer at the Sergipe-Alagoas Business unit (UO-SEAL)
  - Management of mature oil and gas fields in the Sergipe Alagoas basin
  - Oil Field Production and Reserves forecasting with analytical and numerical simulation tools (CMG Software Suite)

2010  
|  
2009

- **Petroleum Engineer**  
Petrobras 📍 Salvador, BA
  - Petroleum Engineering in-company specialization at Petrobras University

2008  
|  
2008

- **Engineering Intern**  
Orbisat 📍 Sao Jose dos Campos, SP
  - Developed a point-target simulator for a ground-based weather radar, using Synthetic Aperture Radar concepts
  - Supported the software development team evaluating and implementing radar signal processing algorithms in IDL

## RESEARCH EXPERIENCE

2007  
|  
2007

- **Diplomand Researcher**  
Deutsches Zentrum für Luft und Raumfahrt (DLR) 📍 Munich, DE
  - Implemented a Synthetic Aperture Radar (SAR) processor in IDL and C/ pthreads
  - Investigated and developed applications of time-domain SAR processing: direct-geocoding and processing of curvilinear acquisition trajectories
  - Researched a novel SAR acquisition geometry
  - Circular SAR"

## PUBLICATIONS

2024  
|  
2024

- **Relative Permeability Modeling of Heterogeneous Carbonate Rocks from Laboratory to Field Scale Simulation: a Presalt Field Case**  
Rio Oil & Gas
  - Authors: Jose Sergio de Araujo Cavalcante Filho, Israel Bruno da Silva Orrico, Marcelo Ramalho Albuquerque, Claudio Roisenberg, Christian Hendra Sunarto

2018  
|  
2018

- **Estimation of Capillary Pressure Curves from Centrifuge Measurements Using Inverse Methods**  
Rio Oil & Gas
  - Authored with Felipe M. Eler, Heitor V.R. Carmargo, André L.M. Compan, Dario A. Cruz and Carlos E. Pedreira.

2008  
|  
2008

● **Applications of Time-Domain Back-Projection SAR Processing in the Airborne Case**

European Conference on Synthetic Aperture Radar

- Authored with Pau Prats and Rolf Scheiber

## AWARDS AND ACHIEVEMENTS

2024  
|  
2024

● **Plinio Cantanhede Award**

Rio Oil & Gas

- Award given for the best paper in the 2024 Rio Oil & Gas Conference in the Upstream Section

2024  
|  
2024

● **Hackathon Semana Petrobras de Dados e Analytics**

Petrobras

- First place in a competition where teams from Petrobras had to train semantic segmentation models to identify turbidite channels in 3D seismic cubes
